## Career Objective

Full stack developer, UX developer, Application developer

## Work Skills

JavaScript, Vue, Express, Flutter, MySQL, MongoDB, C, C++, Python, Linux, LAMP, Nginx, git,

## Education Background

### BACHELOR OF COMPUTER SCIENCE WITH SPECIALIZATION IN SOFTWARE DEVELOPMENT | 2020/05 | ACADIA UNIVERSITY

- Related Course：  C, Java, C++, Python, Software Engineer, Operation System(Linux), System architecture and design, Data Analyse, Data Communication, Artificial intelligent, Database Management(MySQL, MongoDB, LAMP), Web-Centric Development(HTML, CSS, JavaScript, Node.js), Human Computer Interaction(UX), Mobile/Ubiquitous Computing(Flutter) ...

## Skills

### MANAGEMENT

- 2016 – 2017 response for Acadia University Chinese Student Association Publicity Department. I created digital Invitation cards for all of the events we host during that period. Lead the group members to create public activity and invite people to join our event.

### COMMUNICATION

- When I worked in the HyperOptimal, I need to negotiate with customers to understand what they need for their situation and plan together to solve the issue.

### LEADERSHIP

- My friend and I found Hyper Optimal. Lead the development, analyze needs, separate projects into small tasks and give to other members.

## Work Experience

### DEVELOPER | HYPEROPTIMAL INC. | 2019/02
